Scrapbook layout using Paper Pups.

CRICUT®: WHAT WAS USED

Cricut® Paper Pups Cartridge

Cricut Expression® Machine

OTHER MATERIALS NEEDED

- Out of Character cartridge
- Bazzill navy cardstock
- Doodlebug stickers
- BoBunny paper
- metal tags
- zyron

STEP 1

I used CCR and the craftroom basics to cut the rectangle shapes for my bases. I used the Out of Character font to make the word, pup. I chose various icons from the Paper Pups cart. I decided to vertically layer the icons for a funky layout. Really easy layout. I love to use the various icons from a cart to create a supporting role for the picture. I believe it adds to the story of the picture. But sometimes I do have to edit myself if the icons become to distracting. So it is a good idea to layout the icons first before glueing. That way you can add or subtract the pieces. If you are really unsure take a photo of your layout in several different versions. Pick the one you like best!
