I made a 'treeflake'. I used the tree shadow from "Christmas" cartridge at 3" from lt. green cardstock. Using my Gypsy I placed 6 of them to make a snowflake design. (0, -60., -120,, 180., 120., 60. degrees.) I welded them just at the bottom corners. I also did the base layer using dk green the same matching it to the shadow. I welded a 1/2" star at the top of the tree from George and basic shapes cartridge. Also cut 1/2" silver metallic stars to adhere to the base green. The "Noel" octagon image from Christmas cart. was used in the center with lt. green cs, pearl white, and glitter lt teal s and red. I sized it to overlap just enough to weld. After cutting and adhering all the pieces I placed it on a darker teal color and fussy cut it out around the edges. Cut out 1/4" circles to adhere for ornaments out of red, orangy red and peachy pink cs. Glued clear dew drops on top of each one. Added a ribbon for a hanger.
