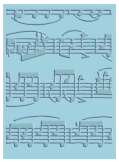
A quick mini stationary set that takes less than five minutes. I know this project is very easy, but that;s exactly what I wanted for my very first post! :)

CRICUT®: WHAT WAS USED



Cuttlebug® A2 Allegro Emboss Folder

Cricut Mni® Personal Electronic Cutter

Cricut Craft Room Basics

OTHER MATERIALS NEEDED

- Cardstock (Mine was textured)
- Cricut Color Markers
- Zig Two-Way Glue Pen
- Bone Folder

STEP 1

Cut a piece of cardstock for your card and fold it in half. (Mine were 3x3 after folding)

STEP 2

Cut a layer of coordinating paper smaller than your folded card.

STEP 3

Run the layer through your Cuttlebug folder of choice. (I used the Allegro at a random angle)

STEP 4

Pick out your monogram to cut at 1 inch.

STEP 5

Use your Cricut Color marker to draw your image.

STEP 6

Cut out your image without removing the mat.

STEP 7

Put it all together with the Zig Two-Way glue pen.

STEP 8

Repeat for each card you want to make.

STEP 9

Finished!
