Project skill level: easy
Project time: 30 minutes to 1 hour
Project tags: Anniversary Love Love Notes/Cards Just Because Cards Friends Southwest

I used a medium weight textured scrapbooking paper in turquoise blue, and 2 different shades of orange, I also used a printed paper from the cricut Animal Kingdom paper pad and a light yellow paper. I used the Southwest cricut cartridge to cut out the arrows, moon, lettering, and the blue zig zag block design. I used my Cricut paper trimmer to cut the 'card' to the size I wanted as well as some of the paper pieces I used. I used a black ink pad to add some dark edges here and there, and a black pen to add dots and stitch marks. I used a white chalk marker to enhance the word Love. I then layered it how I liked and used a glue stick for the adhesive. A bright and cheerful greeting card that says.. Love you to the moon and back.
