SHARE A SUNRISE

Design by: jody3830 (2 Projects)
About me: While I am new to the world of card making and scrapbook creation; I really do enjoy seeing my family and friends' faces when I surprise them with a "Cricut" created card or gift.
Project skill level: easy
Project time: less than 30 minutes
Project tags: Photos/Frames/Boards Spiritual/Religious Family Cards Just Because Cards Playful

I used the Simple Cards cartridge to create the front then dressed up the center area with 6 Martha Stewart pearls. The Irish colleen was created with the Paper Doll Dress Up cartridge and Peachy Keen Stamps with the Martha Stewart butterfly punch to finish the left lower corner. I added the easel from the Fancy Frames cartridge, to the back of the card. I wanted to stand the card on a shelf and the easel from Fancy Frames is perfect. I love the easel cut on the Fancy Frames cartridge. The Simple Cards Cartridge is really easy to work with and very versatile.

CRICUT®: WHAT WAS USED

Cricut Expression® Machine with Plantin SchoolBook and Accent Essentials®

Cricut® Projects Cartridge, Fancy Frames

Cricut® Projects Cartridge, Simple Cards

OTHER MATERIALS NEEDED

- Martha Stewart Butterfly Punch
- Peachy Keen Stamp
- HeroArts rubber stamp
- Martha Stewart Fine Tip Glue Pen
- Martha Stewart Pearls

STEP 1

I cut a piece of blue card stock paper to make the size 8" long by 5 1/2" wide. With the Cricut Expression I cut the Card 2 and Card 2 Insert from the Simple Cards Cartridge at 5 1/2".

STEP 2

The Irish colleen was cut from Paper Doll Dress Up at 5 1/2" but her hair, dress and shoes were cut at 4 3/4" because when I cut them at 5 1/2" they seemed a little too big.

STEP 3

I used the Lattice cut found on the Creative Cards cartridge to design a frame to hold the picture of the sunrise. I used three of the left over cuts from Cards 2 cut on three corners around the picture. I used the Martha Stewart butterfly punch to finish the final corner on the picture.

STEP 4

On the back of the card I placed the easel that I cut from the Fancy Frames cartridge and I cut the heart from the Doodlecharms cartridge.

STEP 5

I used the "HeroArts.com" rubber stamp to finish the back with the phrase "Handmade from the Heart".
