I decorated 3D glasses. They are much more fun to wear while watching a 3D movie. I have a 3D tv that uses the same glasses you wear in the theaters. So you can wear them at home and the theater, ok so I have not worn them in theater yet. But thought this would be fun for kids to make.

PROJECT CUT FILES

STEP 1

I used Masks- Earthy Elements and Suburbia, so if you have those cartridges you can download the cut file, there is also another mask on the file. I used black glitter paper as the base and top layer is foil paper from Walmart. I put the foil paper in the Cuttlebug to emboss and then adhered it to the base and then added rhinestones. Can you guess my favorite color??? And yes that is me in the picture. Watch the video to see more. I could not get it to show here so visit my blog post.
