CREATE A CRITTER 2 CHALLENGE: HOME TWEET HOME

Design by: RhodaSorensen (11 Projects)

About me: I'm a Southern CA scrapbooker! I adore it, you will always find me with inked fingers, glue on clothes, or paint.

Project skill level: moderate

Project time: 30 minutes to 1 hour

Project tags: Vacation/Travel Trendy Scrapbook Layouts Mom/Grandma

I used the Create a Critter cartridge for the Bird, Cricut Craft Room Basics for the font, and Cricut Famous Friends Close to my Heart Artiste for the Accent. I always open 5 or 6 Layers in the Craft Room when I'm designing, so I get the layers correct. I used layer 6 for the Heart and Beak, I selected the Lion S for the biggest bird in one layer, the lion for the second bird. I always change the color of the layer to match my paper. So the back bird was green, top bird was pink, beak and heart was orange.

STEP 1

Open your Cricut Craftroom and open several layers. Select the bird you wish to cut. There are two. The one I used was Shadow/Icon Shadow and I used the Hide Shift button. I made the layer green. Make two.

STEP 2

For the next layer I used the bird under the Icon tab under Show Shift. I made that layer pink. I also made two birds. One bird was one way and I flipped the other bird the other way.

STEP 3

I selected Orange for the next layer and selected under the icon/layer for the heart and beak. I used the heart for the wing.

STEP 4

I used the ghost eyes image for the eyes.

STEP 5

Then I cut out the letters from the Craft Room Basics cartridge, and assembled the page. I added layers and craft tape.

STEP 6

I wanted some journaling so I added from the Artiste cartridge the accent and journalled on top.
