About me: I like manually altering figures and combining cartridges to get just the image I want! My favorite projects are vignettes and gift sets! For years, my preferred medium was fabric!

Project skill level: **advanced**

Project time: 2 hours to 3 hours

Alter the girls on the Teen Scene cartridge to create unique characters. There is also info on getting the look of distressed jeans from paper! This is a card I sent to Provo Craft for a contest, but all the techniques I share can work with any project. All info is on my blog post: <http://www.withglitteringeyes.blogspot.com/2012/04/welcome-ashish-arora.html>
