CAC 2 PIG BIRTHDAY

Design by: terriski (10 Projects)

About me: I love to scrapbook and make cards. I love my Cricut machines.

Project skill level: moderate

Project time: 1 hour to 2 hours

Project tags: Birthday Fashion Wearables

CAC Birthday Piggie.

CRICUT®: WHAT WAS USED

Cricut Expression®
Machine with Plantin
SchoolBook and Accent
Essentials®

Cricut Mini®
Personal Electronic
Cutter

Create a Critter 2
Cartridge

STEP 1

Using Heat N Bond follow directions on package and iron to the back side of the fabric. Pull the backing off the heat n bond and add the fabric to your mat. Using a brayer make sure it is pressed on the mat tightly and no air bubbles. Use a NEW mat or a mat you use for FABRIC only. It really helps to stick. Design the layout using CCR. For this I chose the Birthday piggie to make a shirt for my daughter.

STEP 2

I used Birthday Piggie - and created all the layers for this pig. I again create different layers in the CCR to make the colors the way I want them. I set my dial to 3, 3, and multi cut of 2. I cut some items w/ the expression and others w/ the cricut mini. The smaller items I love cutting w/ the mini and love cutting fabric w/ that.

STEP 3

Layer all items together when cut. Trim off any excess little threads. Iron the layers together starting w/ the top layer iron to the next and so on. I did a little stitching along the areas just to give it a little extra detail. Iron on to the shirt. (I use wax paper to keep it from melting my iron board).

STEP 4

I went back and added a few balloons from CAC 2 and then added some Irock gems.
