CRICUT®: WHAT WAS USED

Cricut Expression® Machine with Plantin SchoolBook and Accent Essentials®

Create a Critter Cartridge

OTHER MATERIALS NEEDED

Fabric in your color choices
new cutting mat

Heat n Bond UltraHold in red package
new blade

STEP 1

Iron on heat n bond on the back side of the fabric according to the directions on the package. Once cool remove the paper backing.

STEP 2

In CCR layout your design of the party pig off of Create a Critter 2 at 6 inches, the balloons off of Create a Critter 2 at 5 inches, and the letters from Craftroom Basics at 1 inch. I recommend that you take all placing marks out of the designs by using the hide contour feature. Place your fabric onto a new cutting mat with the heat n bond side down. Cut all of your fabric in your Cricut machine. Tip: Use a new blade and new mat for best cutting. Blade depth 5, pressure 4.

STEP 3

Place each layer onto the onesie and iron, one layer at a time. I used an 18 month onesie. I placed the balloon strings in the pig's hands. I have the words My and 1st angled slightly and the Birthday straight across the bottom. Your project is complete.
