This is a t-shirt for my 4 year old for Thanksgiving using the Create a Critter 2 Sneak peak images.

CRICUT®: WHAT WAS USED

Cricut Expression®
Machine with Plantin
SchoolBook and Accent
Essentials®

Create a Critter
Cartridge

OTHER MATERIALS NEEDED

Youth Small Orange T-shirt

Fabric in your color choices

Heat n Bond UltraHold in the red package

STEP 1

Iron on heat n bond on the back side of the fabric according to the directions on the package. Once cool remove the paper backing.

STEP 2

In CCR layout your design of the squirrel off of Create a Critter 2 at 5 1/2 inches, the acorns off of Create a Critter 2 at 3/4 inch and 1 1/4 inches, the Happy from Craftroom Basics at 1 1/2 inches and Thanksgiving off of Craftroom Basics at 1 inch. I recommend that you take all placing marks out of the designs by using the hide contour feature. Place your fabric onto a new cutting mat with the heat n bond side down. Cut all of your fabric in your Cricut machine. Tip: Use a new blade and new mat for best cutting. Blade depth 5, pressure 4.

STEP 3

Place each layer onto the T-shirt and iron, one layer at a time. I used a youth small t-shirt. I placed the acorns kind of rounded on the sides of the squirrel. I have the word Happy rounded around the squirrel's head and the Thanksgiving straight across the bottom. Your project is complete.
