This Haunted little Town is filled with many fun and adorable Cricut creations! I was shopping for a new cartridge and noticed that there was a contest going for The Create a Critter 2 cartridge and could not be more excited! I then noticed that today was the final day! I quickly started to plan and after seeing that adorable little ghost with the pirate hat on I knew what I wanted to make! I decided that I wanted to make more than just a card for the little ghost, so I worked along side my Husband and 2 teenage daughters to build this beautiful project! I used every layer and image that I possibly could as well as any of the other cartridges that I own. I only wish the glow in the dark glitter that I put on the ghost photographed better. I am so excited to have made this with my family and to be entering my 1st contest!

## STEP 1

I cut out all of the images from the 5 Create a critter 2 images in the Cricut craft room that I wanted to use and started to put them together. (this is my favorite part) I then used glue and Martha Stewart Glow-in-the-Dark Glitter to cover the cute little ghost. I then cut some dog houses from the Tags, bags, boxes and more 2 cartridge out of black and used them to make my haunted house images and actual "house!"

glow in the dark glitter critter :)

## STEP 2

I then used my Holiday Cakes cartridge to make another Haunted House, some pumpkins and the moon.

## STEP 3

I used the Cake Everyday Sampler cartridge to get that adorable purple fence that closes in my little town!

## STEP 4

I used some raffia to build a little pumpkin patch. I taped wire to the back of the pumpkins so that I could stick them down in the foam board that I covered in felt fabric

## STEP 5

I made these spooky little torches from the Block Party cartridge and added skulls from the Create a Critter 2 cartridge. They were with the ghost hat!

## STEP 6

I put it all together and made this beautiful little Haunted Town to display on my Fireplace :) I hope that helps!
