## ROBOT PARTY GLASSES

**Design by:** [aussieshell](#) (3 Projects)

**About me:** im a mum that LOVES her Pink Cricut!! I scrapbook and make gifts for my family & friends using my cricut

**Project skill level:** [easy](#)

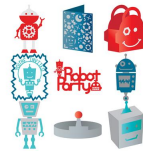

**Project time:** [30 minutes to 1 hour](#)

I made robot glasses from the robot party cartridge for my son's birthday party

## CRICUT®: WHAT WAS USED

Cricut Expression® Machine with Plantin SchoolBook and Accent Essentials®

Robot Party Cartridge

## OTHER MATERIALS NEEDED

cardstock

glue or adhesive of your choice

### STEP 1

Choose your cardstock for the glasses & work out how big you want your glasses to be based on the average child/adult your making them for

### STEP 2

I used my gypsy and was able to fit 10 glasses fronts on one page. I cut mine at about 4 inches as im making them for young children. I made another page on my gypsy for the sides of the glasses and another for the nuts & bolts as i cut those out of different coloured cardstocks.

### STEP 3

Once cut out remove from mat and assemble & glue/adhere the tabs.
