## CUPCAKE BIRTHDAY CARD

**Design by:** [MssyQCD](#) (1 Project)

**About me:** I'm a Christian, a wife, a mom, and a teacher. Running and scrapbooking are also very important parts of my life!!! I try to keep my designs quick and simple, time is everything!!!

**Project skill level:** [easy](#)

**Project time:** [30 minutes to 1 hour](#)

**Project tags:** [Birthday Cards](#)

This is a birthday card I made for a friend of mine at church!!

## CRICUT®: WHAT WAS USED

Cricut Expression®  
Machine with Plantin  
SchoolBook and Accent  
Essentials®

Sweet Treats Cartridge

### STEP 1

I created this card by welding together 2 cupcake shadow images using my gypsy. I also cut all the layers. Everything was cut at 3.94. (The cardstock was from Papertrey Ink & the pattern paper was from My Mind's Eye)

### STEP 2

Once I got the card assembled, I ran the cupcake "frosting" through the D'Vine Swirls Cuttlebug folder and the flower through the Swiss Dots folder.

### STEP 3

Next I added adhesive to the sprinkles and flower center and glittered them up. (I used my Xyron so they were good and sticky, along with Martha Stewart Coarse glitter.)

## STEP 4

I finished the cupcake off by adding a crinke ribbon bow (My Craft Spot) along with a button and twine. (Papertrey Ink) I added some pearls from Michael's and a sentiment from Papertrey Ink's Mixed Messages.
