Baby shower centerpieces made using the EVERYDAY PAPER DOLL cartridge - sizes can be customized depending on use..I have made them as banners,centerpieces...

CRICUT®: WHAT WAS USED

Cricut® Everyday Paper Dolls Cartridge

STEP 1

Start with the body - use the sitting baby sleeper - I cut 1 basic in a print and 1 blackout. in solid or contrasting print. so i can layer them - i cut out the feet and a little off the sleeve so the contrast is there.

STEP 2

Head - use the shift key on the paperdoll body I usally went 1 size smaller for the head - add hair - I used the baby headware feature for a girl and chose a boy hair style for the boys.

STEP 3

I added hands to my babies by using WintG gloves and generally go 1 size smaller..

STEP 4

Baby boys get a hat that matches the bib...use WintG and cut off the ball on top. I used real ribbon in the girls hair

STEP 5

I embellish the face by sponging a little bit of pink ink to the cheeks...I glue a strip of blue behind the eyes and pink behind the mouth.
