First, I created a "gate fold" card using a 6x12" piece of black cardstock by folding the ends toward the middle. Using images from the Cricut A Frightful Affair Cartridge on pg. 45. I cut the shutters to fit my 6" L x 3" W sides. I trimmed the sides window images so they would fit the large (6x6") inside of my card. I used embossing folders to give some of the pieces texture. I left the inside (red pieces) of the right and left shutters free from embossing so I could write a fun note to the recipient.
