#### STEP 1

Choose your images from your cartridge library. For tiles 4 by 4 use one inch sizes or smaller.

#### STEP 2

Check your machine settings. For vinyl I use speed 3, pressure 3 and blade 6. Place vinyl material on cutting mat. Load machine and cut. Trim excess vinyl from your design. Use magic cover transfer tape to remove design from vinyl liner and onto ceramic tile. Repeat this process until you have all of the images and designed to your liking. Tie twine around the base of the tile. Use an easel to display the completed project.

#### STEP 3

Using Don Juan cartridge select the shadow for the word "Thanks". Cut it at 6 inches using white cardstock. Next cut the word "Thanks" in black card stock. Adhere both images together using ATG gun. Using a white signo writer pen doodle dots on the letters as desired. Tie twine around where the letters "a" and "s" connect.

## STEP 4

Cut a 2 inch tag using the Don Juan cartridge. Stamp on the words "To, From, and Your the Best". Using twine attach the tag to the word "Thanks".

Adhere the word "Thanks" to the red bag.

## STEP 5

To make the card use the close to my heart cartridge and cut the card at 4.5 inches on the gypsy using the "card" feature. Next cut out the coordinating cuts at 4.25 and 4.00. Adhere everything together using ATG gun. Stamp the word "Thanks" using saddle stamp pad and "Thanks" stamp from close to my heart.
