A set of 4 lanterns -using Folk Art Cartridge

CRICUT®: WHAT WAS USED

Cricut Expression® Machine with Plantin SchoolBook and Accent Essentials®

Folk Art Festival Cartridge

OTHER MATERIALS NEEDED

Velum paper
small battery tea light

Black card stock

STEP 1

Using either your Gypsy or CCR - Make a Square the size you want your lanterns.

Then make a window opening using another square. I used Cricut Font and Basic Shapes and made an 8x8 square. I then centered that and added a 6x6 square. Once all are cut then score where the tab meets the square.

Step 2 - cut - tabs w/ window opening

STEP 2

For an 8x8 lantern cut vellum paper to 7x7 and glue to the inside of the cut square. I use ATG.

STEP 3

Cut out shapes - using either gypsy or cartridge. I used 4 pieces for this train. Cut 4 of each shape out in BLACK card stock. The train is all cut at 3.5"

STEP 4

Start decorating the front of the panels. I placed the one image on the vellum where I wanted it. Then glue it down using a tape roller type tape.

****TIP**** to line up all the other panels I simply lay the finished one down and then put a new panel on top. Making sure all the edges are lined up - then add the train piece to the top. Repeat this for all the panels. I simply lined up all the little wheels

STEP 5

Glue the tabs together. I lay all 4 pieces out - you will put glue on the top of the TAB only - don't pass over the fold line. Then take the tab of the other panel and fold at the score line. Repeat until all 4 panels are attached then glue together. (I used ATG - but score tape will work too).

STEP 6

Once all lined up then put a flameless candle inside them.
