FOLK ART FESTIVAL HEART

Design by: MelAnn (3 Projects)

About me: I am a spare-time crafter, which means I don't do nearly as much as I want to. I have enjoyed finding new applications for using my Cricut and am excited about getting some new project ideas here.

Project skill level: easy

Project time: 30 minutes to 1 hour

Project tags: Fashion

I wanted to try out a fabric project with my Cricut and make a present for a relative at the same time. I decided to try this heart. It turned out even better than I thought it might!

CRICUT®: WHAT WAS USED

Cricut Expression®
Machine with Plantin
SchoolBook and Accent
Essentials®

Gypsy™ handheld
design studio for
Cricut®

Folk Art Festival
Cartridge

OTHER MATERIALS NEEDED

fabric - print and solid

thread

fusible adhesive

t-shirt

sewing machine

iron

STEP 1

I ironed the solid fabric onto my shirt, being sure to center it. I then lined up the printed fabric sheet on top of the solid heart and ironed it as well. I did a zig zag stitch around the outside of the whole heart. I then used a freehand stitch on the machine to "quilt" around the inside parts of the heart. I wanted to make sure the two parts wouldn't fall apart with washing.

heart

STEP 2

I started by getting a new 12x12 mat to use only for fabric. I used a deep cut blade that will be just for fabric as well. I used a shirt that had been washed and dried (w/o fabric softener), and fabric that had been washed as well. I ironed bigger pieces than I needed of each fabric onto the fusible adhesive.

STEP 3

I enlarged the hearts on the Gypsy and made sure the main image and blackout image were the same size. I cut the main image from the printed fabric. I then cut the blackout image from the other (solid) fabric.
