MANGER ORNAMENT

Design by: AmyW (8 Projects)

About me: At first I got my Cricut for my scrapbooks and then I discovered there are so many other uses for it. Even though I am a mom of three boys I still sneak in the glitter and rhinestones!

Project skill level: easy

Project time: less than 30 minutes

Project tags: Christmas Spiritual/Religious Celebration Party/Decorations/Favors Gifts Holiday Décor

This manger scene ornament will look great on any tree.

CRICUT®: WHAT WAS USED

Cricut Expression® Machine with Plantin SchoolBook and Accent Essentials®

Quiltbug® A2 Distress Stripes Emboss Folder

Inspired Heart Cartridge

OTHER MATERIALS NEEDED

light blue cardstock

red cardstock

darker light blue glitter

rhinestones

light blue ink pad

slightly darker light blue cardstock

red tinsel glitter

ribbon

twine

STEP 1

Cut the manger scene image row 4 and 5th button over then hit the shift key and hit the same key for the background both at 3 1/2 inches. Then cut 2 of shifted images twice but increase the size to 3 3/4 inches out of red cardstock to make an extra layer and way to sandwich the twine used to hang the ornament.

STEP 2

I use a sticker making machine or glue to add adhesive, to add the the blue glitter to the manger scene cut out. I then took the blue background and embossed it with the distressed stripe folder and then inked the raised parts of the embossed paper with a light blue ink pad lightly. Take one of the red layers and a bottle glue and add a thin outline of red tinsel glitter around the edge of the shape.

STEP 3

Glue the manger cut to the blue background, use glue dots to attach the glittered red piece. Add some twine to the back of the ornament and then glue the plain red piece to cover up how it is attached. Add some ribbon tied in a bow and a rhinestone at the base of the twine.
