FOLK ART FESTIVAL CHRISTMAS STOCKING

Design by: [Cindyjz](#) (6 Projects)

About me: Hi! My name is Cindy. I've been crafting with Cricut for several years now and although I've learned a lot in that time, I'm still learning too. I enjoy scrapbooking, but am addicted to vinyl. =D

My daughter's Christmas stocking looked so plain. It needed some character! So I used my Cricut, Folk Art Festival and heat-transfer vinyl to add to some color to it.

CRICUT®: WHAT WAS USED

Folk Art Festival
Cartridge

OTHER MATERIALS NEEDED

Heat-Transfer Vinyl

Christmas stocking

STEP 1

I used the Folk Art Festival cartridge to cut all shapes and fonts and heat-transfer vinyl. First, I chose the design I wanted to put on the stocking and decided what size I wanted it to be. Next, I cut the name from red glitter heat-transfer vinyl using the basic font on the Folk Art cartridge.

Christmas Stocking

STEP 2

Then, I cut the dove and the word "Peace" from white stripflock heat-transfer vinyl. I then weeded out the unnecessary vinyl and the vinyl filling the holes of the letters and the details in the dove. I used the two tulips cut in the dove on each side of the word "Peace".

Christmas Stocking

STEP 3

Last, I ironed on the cuts, using an iron set to cotton for about 15 seconds each. I hung it up in its place and now have a pretty, customized Christmas stocking!
