Use CCR and foam core board to create a decor item that is light weight enough to easily hang on the wall.

### CRICUT®: WHAT WAS USED

Cricut Expression® Machine with Plantin SchoolBook and Accent Essentials®

Cricut® Folk Art Festival Cartridge

### OTHER MATERIALS NEEDED

- card stock
- foam core board
- glue gun

### STEP 1

Use CCR to cut the letters for your item. Attach them to cardstock. Ink all the edges to add depth. Then attached the cardstock to foam core board. Use smaller pieces of foam core behind each of your letters to vary the height of the letters and give the project depth and interest.

It's hard to see just how cool this looks in pictures. It really has a lot of character, unfortunately it doesn't photograph very well.
