## WATERFALL CARD - CRAFTROOM BASICS

**Design by:** Kristina (3 Projects)

**About me:** I received the Cricut for Mother's Day and it has been in constant use sense. ;) I am still very much in the beginner level, but learning more everyday.

**Project skill level:** easy

**Project time:** less than 30 minutes

**Project tags:** BabyCards Cards

This uses only the Craftroom Basics cuts. I used 2x2 pictures for each of the levels. I cannot do the directions justice. This cut was created due to inspiration from Jane at <http://whoopsiedaisy-jane.blogspot.com/2007/07/waterfall-cards-instructions.html>. It was super cute and I couldn't wait to give it a shot.

### CRICUT®: WHAT WAS USED

Cricut Expression® Machine with Plantin SchoolBook and Accent Essentials®

Cricut Craft Room Basics

### OTHER MATERIALS NEEDED

2 pieces of coordinating 12x12 Cardstock

Glue

4 2"x2" pictures

Scordboard

2 eyelets or brads

Ribbon

### PROJECT CUT FILES

[Waterfall Card.ccr](#)

#### STEP 1

Cut the colored card stock and eyelets on the same run. Then cut the "Background Color" with the other. This will be the base for your card. The envelope is from the Spring Holiday Card Cartridge but is not necessary. I left it on there for the image so that you may create your own from the Craftroom Basics if you would like.

#### STEP 2

Print the background layer. Score the background at 4.5.

#### STEP 3

---

The colored card stock that measures 10.3 by 2.3 and score at 2.5, 3.5, 4.5, 5.5 & 6.5 measuring on the side opposite of the eyelet hole.

---

## STEP 4

Okay, now make it look like the picture. :) This cut coordinates with the instructions found on Jane's blog <http://whoopsiedaisy-jane.blogspot.com/2007/07/waterfall-cards-instructions.html>.

Front of the card as given.
