ROBOT VALENTINE'S DAY CARD

Design by: [brianne](#) (1 Project)

About me: I like to craft.

Project skill level: [easy](#)

Project time: [less than 30 minutes](#)

Project tags: [Valentine's Day](#)

Cute robot Valentine's Day card!

CRICUT®: WHAT WAS USED

Cricut® Robotz
Cartridge

Rock Princess Cartridge

OTHER MATERIALS NEEDED

Cardstock

Glue pen

STEP 1

Pick your robots from the Robotz cartridge. I chose a girl and a boy robot. Then I cut them out on my Personal cutter and assembled them.

STEP 2

I used the Robotz font to cut out my phrase "nuts & bolts 4 you". I used my Cricut CraftRoom to weld my letters together but you can do it without the CraftRoom if you'd like.

STEP 3

I chose some screws and gears and cut them out.

STEP 4

I wanted my girl robot to be in love so I used my Rock Princess cartridge to cut out a couple of different sized hearts.

STEP 5

Then I took all my pieces and glued them all to a scrap piece of cardstock that I had folded in half to make a card.
