NATIVITY CARD

Design by: Dana01 (1 Project)

About me: I love to paint, make cards, scrapbooking, alter books, and finding new ideas to try.
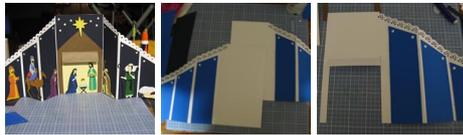

Project skill level: moderate

Project time: 1 hour to 2 hours

Project tags: Christmas Winter Spiritual/Religious Holiday Love Holiday Cards Seasonal Cards Cards Holiday Décor

I used the New Testament Cartridge to make this card. I made it using a zigzag card pattern that I found on youtube. I had a good time making this card.

CRICUT®: WHAT WAS USED

Cricut Expression® Machine with Plantin SchoolBook and Accent Essentials®

Gypsy™ handheld design studio for Cricut®

New Testament Cartridge

STEP 1

I started out with 2 8 ½ X 11 cardstock sheets. After making the Zigzag folds (zigzag cards found on youtube). Then I used a border punch on top edges. For my background I cut 6 strips of blue card stock and cut the tops in an angle and used a star punch in corners. After gluing all the blue pieces I then cut the bottoms so they are even with the bottom of the card. Take one of the card halves and cut an opening for the stable leaving a flap (around 1") at top for the roof. I then took a square piece of dark blue card stock to use for the sky above the stable and used the star punch in the corners. Then I took brown card stock and cut a piece to look like a stable. Cutting a flap (around 1 ¼") to cover the roof that was cut out in the card. Taking the other half of the card I glued a piece of pale yellow card stock for the inside of the stable. Then glued the 2 cards together and added a larger star at top. I then glued my characters into place. The camel had to stick out passed fold to fit and still be able to fold card.

Hope you enjoy my Nativity Card.
