PROJECT CUT FILES

STEP 1

Using Teddy Bear Parade cut out 3 solid bears using the shift key on your cricut at 3" does not matter the color. Also cut out 3 3" bears of different colors, striped, brown, tan and cut out the bears using the shift key so you get solid bears. You can go to my blog to see video and more. <http://melodylanedesigns.blogspot.com/2013/01/more-teddy-bears.html>

STEP 2

Get the 3 different colored bears and put them together in your hand on top of each other. make sure they are all going the same way. Cut the bears anyway you like but do them at same time on top of each other.

STEP 3

Get the solid bears you have not cut to use as the base to adhere the pieces too. I used my Xyron machine and put my uncut bears thru. now put the pieces of your bears together making the different pattern or color not touch the same color or pattern. if you are having trouble you can watch my video here. <http://melodylanedesigns.blogspot.com/2013/01/more-teddy-bears.html>

STEP 4

Add stitching to the pieces, I used a pen. You could add real stitching if you wanted. Then apply the ears and mouths and tummys. Add eyes and nose of your choice.
