

EXTREME FONTS WEDDING INVITATION

Design by: [bandmad](#) (1 Project)

About me: I've been a crafter for over 10 years and mainly like to make cards. I also scrapbook & sew when I have the time. I've just started entering blog challenges and have found it inspiring.

A really clean and simple wedding invitation design made using pearlescent card and the Extreme Fonts cartridge. I used the craft room to set up the design and then drew it using my cricut pens rather than cutting it out. Really simple to make and I think it shows off a really beautiful font.
