I designed this using the Groovy Times Cricut cartridge and Cricut Craft Room. It took me 4 hours just to design it with all 7 layers and it was difficult deciding what should be what color and then getting it on the right layer so I could cut it all out on each layer where it goes on the project. This project has 7 layers, I used 12 by 12 paper, I took the first 2 mat layers off the cutting mats, but then the rest I left on the mat until I was ready to adhere to the project, so I used 5 mats for this wreath.
