Vinyl accents for around your child's room to add a personal touch.

CRICUT®: WHAT WAS USED

Cricut Mini®
Personal Electronic
Cutter

Extreme Fonts

OTHER MATERIALS NEEDED

- Provo craft transfer tape
- Cricut adhesive backed vinyl

STEP 1

Take the inside cuts that you saved from the name and or number and place them wherever using the transfer tape. As you can see I used the inside cuts of the child's name and placed it on a basketball backboard.

STEP 2

First place adhesive backed vinyl on your mat and cut your child's name and favorite sporting number with your Cricut. *NOTE: I set my pressure to 2 and blade depth to 3.

STEP 3

Peel the excess vinyl off that you don't plan to use. But save the inside cuts from the name (and/or number).

STEP 4

Take transfer tape and cut it to the size of the name and/or number and follow package directions to apply where desired.

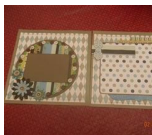

STEP 5

For the football I took a football-looking shape from the basic cartridge and took two parenthesis and placed them over the shape. Then I took rectangles and shrunk them and used those as the laces. I think it came out great! Probably would make good confetti for a football part also.

STEP 6

Cut the football and use transfer tape to apply wherever.
