[Vacation/Travel](#) [Playful](#)

I made this board to count down to our upcoming Disney Vacation!! I used the extreme fonts available in craft room to make it with my Mini and love the way it came out! The Mickey Fonts cartridge would be awesome to use to make your template for the Mickey shape but I free handed it with the chalkboard paint.

## CRICUT®: WHAT WAS USED

Cricut Mini®  
 Personal Electronic  
 Cutter

## OTHER MATERIALS NEEDED

- Wood
- Chalkboard paint
- Paint & Brushes
- Vinyl & Transfer Paper

## STEP 1

I cut and sanded a board then let my daughter paint it yellow, her favorite color. I traced out the Mickey shape and painted it with at least two coats of chalkboard paint, letting it dry between coats. Then I used craft room and the extreme fonts available for free cut and centered the phrase "days until disney" and cut them out of vinyl with my Mini. I used the transfer paper to move it from the mat to the board and I was done! I wanted to make it a Minnie board so I just added a bow!
