**About me:** I am a newbie in the Cricut world but am really excited to get started. My best friend just asked me to be her MOH so I purchased the E2 along with 2 different wedding themed cartridges. Wish me luck!

I have been asked to be the MOH at my best friends wedding. I am making the cards for her bridal shower and have a few different options. Her colors are burlap, grey, silver, and she wants to have yellow gerber daisies and sunflowers. Here are the different options of cards and I hope to hear some great feedback and/or advice. I used two different shapes for the actual card; just a standard 5.25x5.25 square that came preloaded on my EXPRESSION 2 and then I used the TIE THE KNOT cartridge under the card tab & used the favor box plain card. The gown is with the TIE THE KNOT cartridge as well using 3 different layers and using 3D foam for the top layer to give it a bigger effect.
