

# CREATIVE CARDS BIRD CAGE

Design by: Flo (2 Projects)

About me: I am a cricut-a-holic and a cart-aholic. I love my die cutting machines and have a family of Cricuts. I make videos of what I make with the cricut and how to use the machines. Check out my Blog.

Project skill level: easy

Project time: less than 30 minutes

Project tags: Animals Cards Friend Cards

# Playful Friends

Love the Creative cards and I love movement in a card so this one was awesome - a birdcage in a window.

### STFP 1

Using the new Creative Cards I used the basic button 1 card and going across used the insert, the birdcage, birds and flowers from button 29. I have a pic of the CCR layout. I cut the card at 5.5 inches and sized the birdcage to fit the window and the birds to fit the cage simply by using the handles in CCR and making them smaller to the size I wanted.

# STEP 2

I stamped the back of the card with a stamp set which came free with a scrap booking magazine and used the flowers to ground the posts of the birdhouses. I like movement in my cards so I put a brad in the top of the birdcage and in the top of the card and wound a cotton so the birdcage swings freely. I glued a blue bird to the back of the cage and stamped a bird nest on the insert of the card. This card closes down but when opened the brid cage swings in the window.
