About me: I am a crafter who has recently become more serious about my crafting. I am branching out into new types of crafting. Mostly I like to use items I can be upcycled.

STEP 1

In CCR, add Home Accents Petal2-s to cutting mat. Click hide contour. Click on outer most black line to delete (hide) it. This leaves you with a solid shape once you exit hide contour mode. Resize new solid shape to 1.347x1.431.

STEP 2

Using Cricut craft room basics, chose rectangle and resize to 0.56x0.222. Weld to top center of shape. Make 28 copies.

STEP 3

Again, using cricut craft room basics, create circle (1.75 x 1.375).

STEP 4

Cut out all shapes and ink edges of all shapes. You do not need to ink the circle. Curl petals using end of paintbrush/pencil/pen/etc.

STEP 5

Apply small amount of glue to rectangle portion of petal and adhere to outer edge of circle. Do this 3 more times. You should have petals at 12 o'clock, 3 o'clock, 6 o'clock, and 9 o'clock. Adhere the next 4 petals in the open spaces of previous row. Continue this pattern until you run out of petals.

STEP 6

Adhere beads to center of flower.

STEP 7

Randomly paint thin layer of iridescent glitter paint to petals.

STEP 8

Allow to dry completely.

STEP 9

Use to embellish, well, anything!
