PROJECT CUT FILES

[Wizard of Oz.ccr](#)

STEP 1

Download associated ccr file. Open using Cricut Craft Room

STEP 2

The .ccr file is all set up so that you can see the finished product when you initially open it. My suggestion is that you visit each of the tabs and rearrange the elements so that they fit into a smaller area before you cut... This will save you lots of wasted paper!

STEP 3

Assemble Dorothy using the following cuts:

- Pale character silhouette + white shirt + blue dress + red shoes + brown hair in braids

STEP 4

Assembly Toto using the following cuts:

- Black dog silhouette + pink heart nose (I placed mine in behind but it could also be glued to the front)

STEP 5

Assemble Wicked Witch using the following cuts:

- Green character silhouette + black shoes + black dress + black hair + black hat

STEP 6

Assemble Scarecrow using following cuts:

- Pale character silhouette + straw at wrists and ankles + ripped pants + ratty shirt + hat with straw coloured band

STEP 7

Assemble Tin Man using the following cuts:

- Grey character silhouette + shiny silver suit + shiny silver oil can hat
