The cutest little St. Patrick's Day card you ever saw! This card was created using the Paper Lace and Love You a Latte cartridges. Give it a try!

CRICUT®: WHAT WAS USED

Cricut Expression®
Machine with Plantin
SchoolBook and Accent
Essentials®

Paper Lace Cartridge

Love You a Latte
Cartridge

OTHER MATERIALS NEEDED

white glitter cardstock

kraft cardstock

orange ink

green ink

green twine

clear gem

liquid adhesive

green patterned paper

white cardstock

brown ink

clover & cheers stamps

orange button

foam dots

diamond stickles

STEP 1

The card base is white glitter cardstock cut to 4.5" x 9" and folded in half to make a 4.5" square card. The corners were rounded and the edges were inked with Tim Holtz Ripe Persimmon Distress Ink

STEP 2

The green layer was cut using the Paper Lace cartridge. I cut the Lace 2 layer on pg. 30 of the handbook at 3.75" and glued it to the white base

STEP 3

To create the mug I used the Love You a Latte cartridge and cut the mug from kraft cardstock at 2.25". I inked the edges with brown chalk ink, stamped the clover in green, used diamond stickles on the top to simulate the beverage, and adhered a green twine bow to the handle. The mug was popped up on foam dots for a little dimension.

STEP 4

The Cheers banner is a 3.5"x.5" strip of white paper. The edges are inked in brown, the end is "V" cut to create the banner shape, and the word Cheers stamped in green. The banner is glued down and embellished with an orange button, topped with a clear gem.
