#### STEP 1

Cut:  
Home accents flourish: 4" x 1.5  
Ultimate Creative Series Image 25-s (Note: This image has both the flower and the flower center together. Hide contour of flower center. Then add image to screen again, on another layer, and hide contour of flower. Move flower center over petals and resize both at same time to make sure ratios are the same as well as to be able to cut from different paper.)

#### STEP 2

Adhere flourish diagonally in center of page with larger end of flourish in the top corner.

#### STEP 3

Run flower petals through embosser. (I used a wood grain pattern.) Then ink sides and embossed areas.

---

## STEP 4

Run flower center through embosser. (I used Cuttlebug Swiss Dots). Then ink edges and embossed areas.

## STEP 5

Center flower petals over largest end of flourish.

## STEP 6

Adhere flower center to center of petals. (I chose to use dimensional adhesive.)

## STEP 7

Print sentiment onto colored card stock. Cut sentiment to size with decorative scissor. Ink edges. Adhere to card.
