BIRTHDAY CARD

Design by: cowgirl1hh (1 Project)

About me: Love to craft whenever possible! My favorite type of crafting is making scrapbook layouts and birthday decorations. I get my inspiration from my fellow crafters on the Cricut Messageboard.

Project skill level: easy

Project time: less than 30 minutes

Project tags: Birthday Celebration

Celebration Cards FamilyCards Cards Masculine Playful Dad/Grandpa

Airplane birthday card using Pop-Up Neighborhood.

CRICUT®: WHAT WAS USED

Cricut Expression® Machine with Plantin SchoolBook and Accent Essentials®

Pop-Up Neighborhood Cartridge

OTHER MATERIALS NEEDED

Various cardstock

miscellaneous embellishments

Scotch quick-dry adhesive

Tape-runner

STEP 1

Cut all layers of the plane at 3 inches and glue.

STEP 2

Cut and add background paper to your base card using a tape runner or glue.

STEP 3

Add various layers of paper and/or embellishments to add details to your card. For my card I added one strip of cardstock above the airplane and then added the words Happy Birthday. I also used rub-ons above and below the cardstock strip to add a little more detail to the card. At the bottom I added an embellishment as well. Most important is to have fun making the card and personalize it to your liking.
