FLOWERY THANK YOU CARDS

Design by: [ghilles](#) (2 Projects)

About me: I love to use my Cricut Mini every day, and I hope to expand my knowledge of crafts as I grow older.

Project skill level: [easy](#)

Project time: [less than 30 minutes](#)

[Friend Cards](#) [Mbm/Grandma](#) [Friends](#)

Since my birthday is coming up this Sunday (St. Patrick's Day, yay!) I figured I would get started on a quick set of thank you cards to fill out afterward and send to my friends and family members. These don't have a birthday theme, so they can be used for anything!

CRICUT®: WHAT WAS USED

[Cricut Mini®](#)
[Personal Electronic](#)
[Cutter](#)

[Cricut Craft Room](#)
[Basics](#)

OTHER MATERIALS NEEDED

[Recollections Card Stock](#)

[Recollections All Seasons Paper Stack](#)

[Cricut Color Markers](#)

[Hot Glue Gun](#)

[Light Chipboard Flowers/Prima Flowers](#)

[Zig Two-Way Glue Pen \(Chisel Tip\)](#)

STEP 1

Cut an 8.5" x 11" piece of card stock in half- you should end up with two 4.5" x 5.5" pieces. Fold them in half to get two 4.25" x 5.5" cards.

STEP 2

Cut out the layer of your choice at 4" x 5.25".

STEP 3

Cut out your "Thanks" sentiment. (I cut mine at 4" WIDTH, first using my blue Cricut Color marker and then with my blade)

STEP 4

Assemble the card- Put your layer on the base with your adhesive of choice. Then, choose two or three chipboard flowers to glue on (you don't have to make them 3D, but you can with Dimensionals or a thick layer of hot glue- don't burn your fingers!), and adhere those as well. Then, to finish it off, adhere your sentiment.

STEP 5

You could also apply some glitter or gems to add some more shine, but I chose to leave them the way they are because I'll probably end up making a ton!

STEP 6

All Finished!
