This is a layout of my daughter who made a really cute Indian princess for Halloween. I was very excited when we went to a favorite cider mill and they had a tee pee to take pics by too!

PROJECT CUT FILES

STEP 1

Cut shapes used out of Southwest cartridge. I have included the save project file for the shapes. I used black cardstock for the shadows. I then cut shapes out of brown. I also cut the ax, arrows, and dream catcher out of grey to add more dimension.

STEP 2

Cut one inch strips out of the patterned paper to make 2 of the checked paper and 2 out of the southwest looking paper. These will be your borders. Also cut a 4x6 inch piece out of the checked paper to place between the bottom pictures.

STEP 3

Make a zig zag in craft room by taking a "V" and turning every other one upside down and merging them until you get to your desired length. This will be glued on the center borders.

STEP 4

Cut title from the font layer using the shift key in brown cardstock. And then the shift font shadow layer for the shadows in grey cardstock. I cut them using 1, 1.25, and 1.5 inches to make it more fun.

STEP 5

Ink all layers of the cuts with black ink.

STEP 6

Add blue rhinestones to the pottery, tee pee, dream catcher, and below the man.

STEP 7

Add crystal laquer to the ax, arrows, dream catcher, and title.
