CRICUT®: WHAT WAS USED

OTHER MATERIALS NEEDED

Duck Tape

Vinyl

STEP 1

The first thing that needs to be done is to make the pocketbook. If you have never worked with Duck Tape before there is some great videos on youtube. You will be amazed on all things you can create with Duck Tape and how easy it is. I then braided the strap, again using Duck Tape.

STEP 2

Once the pocketbook is together then you are ready to decorate. I used the Southwest Cartridge to pick out some fun designs that I then cut on the Cricut using Vinyl.
