SOUTHWESTERN BLACK POTTERY

Design by: [Cindyjz](#) (6 Projects)

About me: Hi! My name is Cindy. I've been crafting with Cricut for several years now and although I've learned a lot in that time, I'm still learning too. I enjoy scrapbooking, but am addicted to vinyl. =D

I just love this new cartridge! My husband is Native American from the Southwest so I've been waiting so long for a cartridge like this. There are so many possibilities! He has owned this black pottery since long before we were married (over ten years now) and it has always bugged me at how plain it was. I've been wanting to add something to it, so when the Southwest cartridge came out, this was the first thing I thought of! I'm so much happier with it now!

Black pottery before I added a design

STEP 2

2. Cut out border (Dreamcatcher - Emblems & Borders + Shift) in copper vinyl.
3. Weed any unneeded vinyl.
4. Apply transfer tape to top of vinyl before removing from backing paper.

STEP 3

5. Remove vinyl from backing with transfer tape.
6. Apply to pottery and enjoy! This is a bit more difficult to apply than other projects due to the roundness and curve of the pottery. Take your time, keep your patience and apply carefully.
