I don't have an iPhone but still liked the Vinyl Cuts for the phones. So I thought I would make a card with one of them. Just cut out the design and then use the inverse piece to lay down on the card and then picked up the cutout pieces from the mat and placed them in all the cutouts - perfect position! Cut the butterfly out three times - first layer glued to card. Second layer was cut on vellum, minus the four cutouts for the wings and then third layer. Attached the vellum to the third layer, the cutouts in the wings are then see-thru! After attaching it to the card thought that it could use some bling so put Stickles on the vellum showing thru. Haha - didn't need to go to the trouble of cutting out the second piece on vellum, but it was a cool idea!

CRICUT®: WHAT WAS USED

Cricut® Personal Electronic Cutter Machine

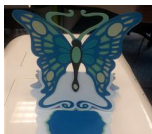

Phone Vinyl - 04

OTHER MATERIALS NEEDED

- Stickles
