Put a saying inside an embroidery hoop using Cricut's new Iron On Vinyl. Then embellish and hang on the wall for a great statement.

PROJECT CUT FILES

[Crafting Iron-on.ccr](#)

STEP 1

I got a 23" quilters embroidery hoop and painted the outer ring yellow on the top of the hoop and the front. I didn't bother with the inside or back because they will be hidden once the fabric is in place.

Paint just the outside hoop

STEP 2

I used a large piece of canvas fabric to fill my hoop once it was dry. I didn't cut it yet because I knew it would shift a little while I was attaching the embellishments.

STEP 3

Then, using the Cricut Craft Room, I cut some pink Iron On Vinyl from Cricut. I used the Go Canada font for the "Crafting" and the Keystone font for the rest! Download my file [here](#). Make sure to cut the mirror image of your project or else it will all be backwards once you iron it on!

STEP 4

Once the item was cut out, I removed the excess vinyl revealing just the saying left on the transfer film. Then I ironed it onto the fabric following the instructions that came with my package. Then I removed the film to reveal my image attached to the fabric.

STEP 5

Then I added some buttons, that I had left over, in coordinating colors with a contrasting thread.

STEP 6

I also attached the paper straw garland to the top corner of it. I then cut the excess fabric off the back.
