I purchased the pot from Dollar Tree and used Flower Shoppe to create the flowers. They are glued onto a wire flower stem and then inserted into the pot which has foam in the bottom. Each flower has a plastic white bead in the center. This project takes 1 - 2 hours to complete.

OTHER MATERIALS NEEDED

- White Beads
- Hot Glue Gun
- Green Moss
- Floral Wire
- Styrofoam

STEP 1

Place Styrofoam in the bottom of pot.

STEP 2

Use glue gun to attach moss.

STEP 3

Cut 25 of the spiral shapes .. 3rd from the left.

STEP 4

Roll each flower and glue to the base when you get to the end. Let the flower "bloom" unravel a little before attaching it to the base. Find the center point of the flower and press all of the petals down toward the table. Then fluff your flower.

STEP 5

Glue one bead to the center.

STEP 6

Bend the end of a floral wire and glue it to the base of the flower.

STEP 7

Stick the flower into your pot. Continue adding flowers until you have the desired fullness for you bouquet.

STEP 8

I added a tag with a ribbon!
