**About me:** I've been a crafter all of my life. The day I bought my Cricut Expression changed my life, I can spend hours and hours cutting, assembling and just plain having fun, "playing" with all of my toys.

**Project skill level:** **easy**

**Project time:** 30 minutes to 1 hour

One of the projects I've made using my free access I won from the, "Extreme Fonts Contest". I fell in love with these little couches and chairs.

#### STEP 1

Cut couch and chair at 5 1/2". Cut arms of both out twice, remember to flip one of the cuts, also hide the contours on the sides for the tabs to go into. Cut arms out of chipboard, again hiding the tab contours. I cut the couch out of one side of the paper, using the flip side for the chair.

#### STEP 2

Glue all parts together, making sure to fold down the tabs.
