STEP 1

I used the font from the cartridge for the title and the E=MC 2 cut on page 18 for an embellishment. The letters are cut at 1 inch and the E=MC 2 is cut at 5.5 width by 2.5 height.

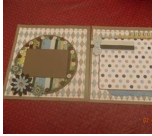

STEP 2

I really like this particular cut and I have a few more idea for it on a card. I used copics to color the chemistry beaker and added some little crystals as bubbles. For the top layer of the beaker, I added some Lemon Ice Stickers

STEP 3

Choose embellishments and your picture. I used an old polaroid that I scanned and then enlarged. I colored a stamp with copic markers and layered some Cricut hearts and stars from my stash, plus other embellishments on the page.
