PROJECT CUT FILES

STEP 1

Sorry, I forgot to take pictures as I went. But first I cut the Mat layers in my new paper cutter you can see in this video. I then used the Cuttlebug on the top mat layer. The butterfly and grass came from Artiste cartridge and the sign and flowers came from Freshly picked.

STEP 2

I cut the grass out with 2 different colors and layered them with foam squares so they were more 3d and put the flowers in various places in the grass. I stamped, and inked the edges of the sign before putting in grass. I used markers on flowers just to make them a little more dimensional.

STEP 3

On the inside I just stamped with the word Smile and added a smiley face sticker.
