Design by: [suek86401](#) (35 Projects)

About me: I've been a crafter all of my life. The day I bought my Cricut Expression changed my life, I can spend hours and hours cutting, assembling and just plain having fun, "playing" with all of my toys.

Project skill level: moderate

Project time: 30 minutes to 1 hour

Project tags: Mother's Day Feminine Holiday

Please pardon the little imperfections, I made this to enter an online challenge but the little boo boos I made won't win me any prizes.

STEP 1

Place card on mat, position font on front of card, cut both the card and font in one cut, save the font negatives. I cut the card at 5", the font at 0.8 of an inch with the letter spacing set at -1 and the slant at 3.

STEP 2

Emblish as desired, I added some pearls to my butterflies, a lady bug on one flower and added glazed dimensions to layer 2 of my flowers. I also added glazed dimensions to the font negatives after gluing the negatives to the card.
