PROJECT CUT FILES

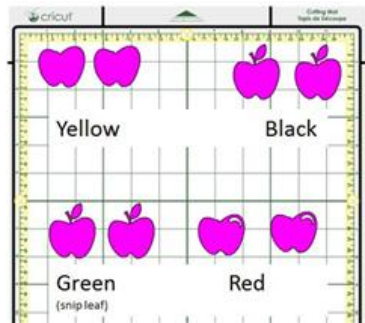

STEP 1

Using the file yourule.ccr, cut each layer using the photo and layer information on the .CCR file for color reference.

STEP 2

For the apple, use smaller pieces of paper to cut two of each piece. Snip off the green leaf and glue it to the apple stem. Glue raffia to the back side of one of the apples, then glue the other apple over it.

STEP 3

For the tea bag, cut off the "string" and "mini tag". Glue raffia on the backside of one of the tea bags, then glue the other tea bag. You can use sticky dots to place a gift card on the tea bag.

STEP 4

For the ruler, use ruler scrapbook paper, or cut one out using the Locker Talk cartridge.
