Design by: [NadiaHerbstMcConnell](#) (10 Projects)

About me: I like manually altering figures and combining cartridges to get just the image I want! My favorite projects are vignettes and gift sets! For years, my preferred medium was fabric!

Elegant Edges Cartridge

OTHER MATERIALS NEEDED

Card stock adhesive Cuttlebug folder

STEP 1

I used the easel tutorial on Col's Creative Corner (<http://tinyurl.com/crnepv>) for the base. The sky was made using a Cattlebug embossing folder. I cut the barnyard background, sheep, and text mat. For cut sizes and my details on how to add dimension to the sheep, check out my blog: <http://withglitteringeyes.blogspot.com/2013/05/e-i-e-i-o-and-ease-on-down-road.html>
